

Let your BOS adventure

BEGIN!

POWERED BY ECONOCOM

A mobile-as-a-service solution with value-add services

Why BOS?

We live in a fast-paced and unpredictable world, where keeping your cash and utilising subscription-based services has become the norm. With technology evolving rapidly, the ownership model is becoming outdated as companies look to refresh and scale their devices quickly and easily. Econocom offers flexible, personalised and customer-focused services which provide greater benefits than complete purchasing. Introducing BOS, a mobile-as-a-service solution with end-to-end services, to help you upgrade your technical estate when needed.

iPhone 13
128GB

“

As soon as we heard about BOS, we could instantly see the opportunities that it could afford us as a forward-thinking business. We wasted no time in signing up and were delighted to see the devices arrive at our doorsteps just three days later.” – Sarah Mitten, Head of Finance at Wiggin LLP
