

LAYTON PRIMARY SCHOOL, IMPROVING THE INDEPENDENT LEARNING SKILLS OF ITS PUPILS VIA INNOVATIVE MOBILE DEVICES

Layton Primary School is a large institution with 600+ pupils, recognised as an Apple Distinguished School for its continuous innovation in learning, teaching, school environment and unique implementation of Apple technology.

THE CHALLENGE

Layton Primary School's previously purchased **iPad devices** needed to be replaced. Due to a lack of budget, Layton could only afford to refresh **half of them**.

Layton was looking for a **smarter alternative** than upfront payment to refresh its **entire estate**, while optimising its **budget**. **Lifecycle services** to support the devices were also required to save Layton effort and time.

THE SOLUTION

An **as-a-service mobile** solution, called BOS, reducing the complexity of purchasing with **simple monthly payments** making it possible for Layton **to refresh its entire estate**.

One **single subscription** tailored to Layton's specific needs, including **160+ iPads Wi-Fi & Pro** for students & teachers, supported with **end-to-end services**: delivery, Device Enrolment Programme, next day swap warranty, collection & recycling.

THE ECONOCOM TOUCH

Enable Layton Primary School to **update its mobile assets more frequently**, which allows its pupils and staff more **regular access** to the latest mobile technologies.

WE DID IT!
FAST ROLL-OUT

A paperless process using electronic signature, with deployment in one go just a few days after contracts were e-signed

IMPACT
100%

Mobile estate refreshed

VOLUME
160

iPads with cases, keyboards and pencils

ADDED VALUE:
FOR LAYTON PRIMARY SCHOOL

100% of devices refreshed

One single monthly price including **devices** and **expert services**, saving Layton significant **time** and **money**, while providing **peace of mind**

No ownership burden

FOR PUPILS

Providing a **wide range of digital experiences** for children through which they will acquire knowledge and develop **skills**, which can be applied both **now** and **in later life**.

IN THEIR OWN WORDS...

Our BOS subscription allows us to be at the forefront of the technological progression across the entire school. The simplicity of BOS was a key driver for us: it's a subscription including devices and services in one simple package. Added-value services such as the next-day swap warranty over the entire contract term is perfect for peace of mind.
