

SECURE AND AUTOMATE THE INDUSTRIAL PROCESS

CUSTOMER

CIRCUIT FOIL, a Luxembourg-based company, is the global specialist in manufacturing copper foil for the high-tech industry (electronic components, integrated circuits and printed circuits).

BUSINESS ISSUES

DESCRIPTION

Make cost savings whilst providing quality control for the production line

THE SOLUTION

- A leasing solution for CCTV cameras using state-of-the-art optics, electronics and IT technology set up directly on the production line
- Monitoring of the quality of copper foil production via an automatic alert system

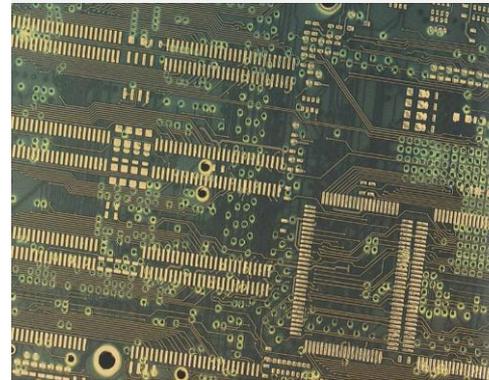

CUSTOMER BENEFITS

- Continuous monitoring of the production line
- Better quality control of the manufacturing lines
- Limit losses and returns of defective products
- Fast ROI

THE CONTRACT

OVERVIEW OF THE OFFER

- 5-year lease contract
- Supply and deployment of equipment

KEY FIGURES

- Installation of 4 cameras (2 above and 2 below) to ensure optimal monitoring of the production line

CUSTOMER TESTIMONY

Fabienne BOZET, CFO :

«We had to find a solution to improve productivity whilst maintaining the quality of our products. Econocom understood our concerns and helped us find a financing solution.»
