The School Leasing Framework

Making leasing a **simple** and **safe** form of purchasing the equipment they need **while preserving cash** for core educational activities.

1 What is the School Leasing Framework?

To address compliance concerns around leasing in schools, **MUFG Corporate Markets**, working in conjunction with UK local authorities, established the School Leasing Framework, a standard, pre-qualified, and fully compliant leasing facility for financing EdTech.

Working with Durham County Council as lead authority, MUFG Corporate Markets established a new Find a Tender (FAT) tendered framework for the procurement of leasing facilities for educational establishments. This framework was scoped so that it can be accessed by all educational institutions in the United Kingdom.

Leasing is a simple way to acquire the technology you need while preserving cash for core educational activities.

MUFG

MUFG Pension & Market Services

€2.9 bn revenue in 2025	**8,680** employees
£13M processed IT equipment	**500+** schools equipped
4.96/5 Customer rating	**50 years** of experience

2 How does it work?

The lease process is simple:

1. You choose your equipment and your supplier(s).
2. You complete our quick and easy, online lease request form, attaching your supplier(s) quotes: **www.econocom.co.uk/our-sectors/education/schools-leasing-framework**
3. We approve your request and issue contracts.
4. When the contract is signed, we send your supplier(s) a purchase order to invoice Econocom.
5. Your supplier(s) invoices us and delivers the equipment to you.
6. You sign an Invoice Approval confirming the equipment and we settle your supplier(s) invoice, only when approved by you.
7. Your lease goes live.

3 What equipment can we finance?

All forms of digital hardware and operating software.
This includes:

PCs, laptops, servers, tablets, PDAs, interactive whiteboards, POS systems and other telecommunications infrastructure such as Wi-Fi networking, CCTV and more.

4 FAQ:

1. What are my payment options?

Quarterly or annually over 2, 3, 4 and 5 years.

2. Can I work with more than one supplier?

Each lease can accommodate as many suppliers and invoices as you need, allowing you to manage your entire digital investment through a single lease.

3. What size can my project be?

Any project starting from £2,000 can be accommodated by the framework.

4. What type of lease does Econocom provide?

Any lease options from Econocom has been structured as residual based / non-residual based lease.

5 Econocom & EdTech

Econocom is Europe's largest independent provider of 'payment-over-time' and subscription solutions for digital projects.

Econocom has over 15 years of experience in the education sector. In the UK, we support over 500 colleges and schools with their digital projects.

In 2012, Econocom funded the entire Acer ICT estate used at the **London Olympic Games**. Following the Games, we remarketed over **24,000** units into the UK education sector, helping to build on the Olympic legacy and deliver significant savings.

Customer Review

This was our first leasing agreement with Econocom. I found it a very easy and efficient process.

I will definitely use Econocom again!
