

## Business Optimisation Services (BOS): a modular subscription service for your mobile devices

We live in a world where ownership is outdated. Flexible, personalised, customer-focused services offer more benefits than purchasing, without the burden of ownership. Thus, subscription-based models now prevail. At Econocom, we designed BOS with you in mind; use us to update your mobile devices and customise the service to your individual needs.

### FLEXIBILITY

£1 / month / device per option
